CHAPTER I

NATURE AND OBJECTIVES OF EDUCATIONAL SERVICES

1. The educational services offered to students include preschool education services, elementary and secondary instructional services, student services and special services.

O.C. 651-2000, s. 1.

DIVISION I

PRESCHOOL EDUCATION SERVICES AND ELEMENTARY AND SECONDARY INSTRUCTIONAL SERVICES

2. The purpose of preschool education services is to promote the overall development of children by helping them to acquire the attitudes and competencies that will facilitate their success as students and as individuals and by enabling them to integrate gradually into society.

The purpose of elementary instructional services is to promote the overall development of students and their integration into society through basic learning, which will contribute to the progressive development of their autonomy and will prepare them for the level of learning required in secondary school.

The purpose of secondary instructional services is to further the overall development of students, to foster their social integration and to help them determine personal and career goals. The services complement and reinforce the basic education received by students so that they may obtain a Secondary School Diploma or other occupational qualifications and, as the case may be, pursue postsecondary studies.

O.C. 651-2000, s. 2.

DIVISION II

STUDENT SERVICES

3. The purpose of student services is to help students to progress in their various types of learning.

O.C. 651-2000, s. 3.

4. Student services for which programs are to be established under the first paragraph of section 224 of the Education Act (chapter I-13.3) shall include the following:

(1) support services designed to provide students with conditions that are conducive to learning;

(2) student life services designed to foster students' autonomy and sense of responsibility, their moral and spiritual dimensions, their interpersonal and community relationships, as well as their feeling of belonging to the school;

(3) counselling services designed to help students throughout their studies, with their academic and career choices, and with any difficulties they encounter;

(4) promotion and prevention services designed to provide students with an environment conducive to the development of a healthy lifestyle and of skills that are beneficial to their health and well-being;

(5) *(paragraph revoked)*.

O.C. 651-2000, s. 4; O.C. 865-2001, s. 1.

5. Student services provided under section 4 must include the following:

- (1) services designed to promote student participation in school life;
- (2) services designed to educate students about their rights and responsibilities;
- (3) sports, cultural and social activities;
- (4) support services for the use of the documentary resources of the school library;
- (5) academic and career counselling and information;
- (6) psychological services;
- (7) psychoeducational services;
- (8) special education services;
- (9) remedial education services;
- (10) speech therapy services;
- (11) health and social services;
- (12) services in spiritual care and guidance and community involvement.

O.C. 651-2000, s. 5; O.C. 865-2001, s. 2.

DIVISION III

SPECIAL SERVICES

6. Special services are designed for students who, because of particular circumstances, require welcoming services and services providing assistance in learning French or home or hospital instruction.

O.C. 651-2000, s. 6.

7. Welcoming services and assistance in learning French are designed for students whose first language is not French, who are receiving educational services in French for the first time, and whose knowledge of French does not enable them to keep up with a regular class. Those students may benefit from assistance in learning French for more than 1 school year.

The purpose of the welcoming services and assistance in learning French is to help the students to integrate into a regular class where instructional services are provided in French.

O.C. 651-2000, s. 7.

8. Home or hospital instruction is designed for students who are unable to attend school because they require specialized health care or social services.

The purpose of home or hospital instruction is to allow students who are unable to attend school to achieve the objectives of the programs of studies.

O.C. 651-2000, s. 8.

CHAPTER II

GENERAL ORGANIZATIONAL FRAMEWORK FOR EDUCATIONAL SERVICES

DIVISION I

ADMISSION AND SCHOOL ATTENDANCE

9. In order for a person to be admitted for the first time to the educational services offered by a school service centre, an application must be submitted to the school service centre under whose jurisdiction that person falls.

An application for admission must include the following information:

- (1) the person's name;
- (2) the person's residential address;
- (3) the names of the person's parents, unless the person is of full age;
- (4) *(subparagraph revoked)*.

O.C. 651-2000, s. 9; O.C. 865-2001, s. 3.

10. If the person has already attended an educational institution in Québec, the application for admission must include an official document bearing the permanent code assigned to the person by the Ministère de l'Éducation, du Loisir et du Sport, such as a report card.

If the person cannot provide such a document, because, for example, the person will be attending an educational institution in Québec for the first time, the application for admission must include a birth certificate bearing the names of the person's parents, except if the person is of full age, or a copy of the person's act of birth issued by the registrar of civil status.

If, for one of the reasons set out in articles 130 and 139 of the Civil Code, a copy of the person's act of birth or birth certificate cannot be provided, the application for admission must include an affidavit attesting to the person's date and place of birth. That affidavit shall be made by the person, if of full age, or by one of the person's parents.

O.C. 651-2000, s. 10.

11. The school service centre shall inform the parents or the person, if of full age, whether the application for admission has been accepted or refused.

A school service centre that admits a student living in the territory of another school service centre or who was attending a school or centre of another school service centre or another school board or a private educational institution must send that school service centre, school board or private educational institution an attestation of admission.

O.C. 651-2000, s. 11; O.C. 816-2021, s. 65.

12. Children who reach the age of 5 before 1 October of the current school year and whose parents have submitted an application for admission shall be admitted to preschool education.

Children living in low-income areas, within the meaning of Schedule I, who reach the age of 4 before 1 October of the current school year and whose parents have made an application, shall be admitted to preschool education; the Minister shall establish a list of the school service centres authorized to admit those students living in low-income areas and shall determine the conditions for their admission.

Children with handicaps, within the meaning of Schedule I, who reach the age of 4 before 1 October of the current school year and whose parents have made an application, shall be admitted to preschool education.

Children who reach the age of 6 before 1 October of the current school year shall be admitted to elementary school.

For the purposes of the Act respecting private education (chapter E-9.1), the first paragraph of this section is to be read, until the date determined by the Government for the coming into force of section 13 of the Act to amend the Education Act and other provisions regarding preschool education services for students 4 years of age (S.Q. 2019, c. 24), for the 2020-2021 school year and subsequent years, as if "age of 5" were replaced by "age of 4" and as if "so that the program of activities established by the Minister for their age is provided to them" were inserted at the end.

O.C. 651-2000, s. 12; S.Q. 2019, c. 24, s. 19.

13. A student shall be promoted from elementary to secondary school after 6 years of elementary school studies; a student may however be promoted after 5 years of studies if he or she has achieved the objectives of the programs of studies at the elementary level and has acquired sufficient emotional and social maturity.

It is up to the school service centre responsible for the elementary education of the student to determine whether or not that student satisfies the requirements of the elementary level.

O.C. 651-2000, s. 13; O.C. 488-2005, s. 1; O.C. 699-2007, s. 1.

13.1. For elementary education and at the end of the first year of secondary school, the school principal may, exceptionally, in a student's interest, allow the student to remain for a second year in the same class if it is evident from the student's individualized education plan that such a measure is, among possible measures, a measure more likely to facilitate the student's academic progress.

The measure, which may be used only once during elementary education, must not result in the student being promoted to secondary school after more than 6 years of elementary school studies, subject to the power of the principal, at the end of that period, to admit the student to an additional year of elementary school studies in accordance with the Act.

O.C. 699-2007, s. 2; O.C. 881-2007; O.C. 399-2010, s. 1.

14. A person who is over the age limit referred to in the first paragraph of section 1 of the Education Act (chapter I-13.3) may, on the conditions the Minister determines, be admitted to the educational services provided by a school if the person

(1) was enrolled in the previous school year

(a) in a school or vocational training centre established by a school service centre;

(b) in a private educational institution in Québec that offered elementary or secondary education; or

(c) in an educational institution outside Québec that offered instruction equivalent to elementary or secondary education provided in Québec; or

(2) was enrolled, in the last 24 months, in an educational institution referred to in paragraph 1, but was unable to be enrolled in that educational institution in the preceding school year because the person

(a) gave birth to a child;

(b) was caring for a child under the age of 12 months; or

(c) was unable for more than 1 month to continue studies and that incapacity is supported by a medical certificate.

O.C. 651-2000, s. 14; O.C. 488-2005, s. 2.

DIVISION II

CYCLES OF INSTRUCTION

15. Elementary education is organized into 3 cycles of 2 years each.

Secondary education is organized into 2 cycles: the first covers 2 school years and the second, 3 school years.

A cycle is a period of learning during which students acquire knowledge and competencies in each subject area which prepare them for further studies.

O.C. 651-2000, s. 15; O.C. 488-2005, s. 3; O.C. 712-2010, s. 1.

DIVISION III

SCHOOL CALENDAR AND PRESCRIBED TIME

16. The school calendar for students shall consist of the equivalent of a maximum of 200 days, at least 180 of which must be devoted to educational services.

However, for the students with handicaps and the students living in the low-income areas referred to in the second and third paragraphs of section 12, the school calendar shall consist of the equivalent of a maximum of 200 half-days, at least 180 of which must be devoted to educational services, unless the school service centre, to the extent and on the conditions determined by the Minister, grants them an exemption.

O.C. 651-2000, s. 16; O.C. 318-2024, s. 1.

17. For children in preschool education, the week shall consist of a minimum of 23 hours and 30 minutes devoted to educational services; for elementary students, the week shall consist of a minimum of 25 hours devoted to such services.

All students shall have a minimum period of 50 minutes for lunch every day, in addition to the prescribed time for educational services. Elementary students shall also have 2 recesses of a minimum of 20 minutes, one in the morning and the other in the afternoon, in addition to the prescribed time.

However, for the students with handicaps and the students living in low-income areas referred to in the second and third paragraphs of section 12, the week shall consist of a minimum of 11 hours and 45 minutes devoted to educational services, unless the school service centre, to the extent and on the conditions determined by the Minister, grants them an exemption.

O.C. 651-2000, s. 17; O.C. 488-2005, s. 4; O.C. 544-2019, s. 1.

18. For secondary students, the week shall consist of a minimum of 25 hours devoted to educational services. The students shall also have a minimum period of 50 minutes for lunch and 5 minutes between each class, in addition to the prescribed time.

O.C. 651-2000, s. 18.

18.1. Despite the first paragraph of section 17, the first school days of the school calendar for children in preschool education may be used to allow them to enter school gradually.

Each day used for gradual entry to school constitutes, for the purposes of the first paragraph of section 16, the equivalent of one day of class in the school calendar devoted to educational services.

O.C. 399-2010, s. 2.

18.2. For students in elementary school and students in the first cycle of secondary school, the school calendar must consist of at least 720 hours devoted to the instruction of the compulsory subjects provided for in section 22 or 23, as the case may be.

For students in the second cycle of secondary school, the calendar must consist of at least 648 hours devoted to the instruction of the subjects provided for in section 23.1 and the elective subjects appearing on the list drawn up by the Minister under the Act.

O.C. 399-2010, s. 2; O.C. 318-2024, s. 2.

19. The following days are school holidays for students:

- (1) Saturdays and Sundays;
- (2) 1 July;
- (3) the first Monday in September;
- (4) the second Monday in October;
- (5) 24, 25 and 26 December;
- (6) 31 December, 1 and 2 January;

If, during the year, significant adjustments are made to the information to which subparagraph 4 of the first paragraph applies, the school principal ensures that the adjustments are also communicated to the parents or to the student.

O.C. 651-2000, s. 20; O.C. 712-2010, s. 2.

In addition to the elective subjects that schools choose among those on the list drawn up by the Minister, the schools must offer students in the applied general education path the elective subjects specific to that path if those subjects are on the list.

Schools may use the time allotted for the elective subjects for remedial purposes to extend the time allotted for the compulsory subjects or to implement student services programs. No credits are given in those cases. Schools may also offer as elective subjects local programs of studies for which credits are given.

27. Students who show that they have achieved the objectives of a program by passing an examination set by the school or the school service centre are not required to take that program. The time allotted for that program shall be used for learning purposes.

O.C. 651-2000, s. 27.

DIVISION VII

EVALUATION OF LEARNING

28. Evaluation is the process whereby a judgment is made on a student's learning, that is, knowledge and competencies in each subject area, on the basis of information gathered, analyzed and interpreted, for the purpose of making pedagogical and, where appropriate, administrative decisions.

A decision to promote a student to the next cycle shall be based on the student's last report card of the last school year and on the rules governing promotion established by the school or the school service centre, according to their respective responsibilities.

In the second cycle of the secondary level, the promotion of a student to the next year shall be by subject in the case of a student taking the general education path or the applied general education path.

O.C. 488-2005, s. 8; O.C. 699-2007, s. 7; O.C. 712-2010, s. 4.

28.1. For elementary and secondary education, the pass mark is 60% for each subject.

O.C. 712-2010, s. 5.

29. In order to inform a student's parents of the student's learning and behaviour, the school provides one written communication, other than a report card, to the parents no later than 15 October. If the student is of full age, the communication is provided to the student.

O.C. 651-2000, s. 29; O.C. 488-2005, s. 9; O.C. 712-2010, s. 6.

29.1. In order to inform a student's parents of the student's academic progress, the school provides a report card to the parents at the end of each of the 3 terms, in the form prescribed by Schedules IV to VII. If the student is of full age, the report cards are provided to the student.

The report cards are provided no later than 20 November for the first term, 15 March for the second term and 10 July for the third term.

O.C. 712-2010, s. 6; O.C. 318-2024, s. 5.

29.2. At least once a month, information is provided to the parents of a minor in the following cases:

(1) the student's results put him or her at risk of not obtaining the pass mark for the programs of studies or, for a child in preschool education, when the child's progress indicates that he or she will not be ready to proceed to the first grade of elementary school at the beginning of the following school year;

(2) the student's behaviour does not comply with the school's rules of conduct;

(3) an individualized education plan providing for the information was prepared for the student.

The information is intended to foster collaboration between the parents and the school in correcting learning difficulties and behavioural problems as soon as they appear and, in some cases, in implementing an individualized education plan.

O.C. 712-2010, s. 6.

30. The report card for preschool education must be consistent with the report card in Schedule IV and contain all the information shown in sections 1 and 2 of the report card in the schedule; the last report card of the school year must contain all the information shown in section 4 of the report card in the schedule.

The results shown as observations in section 2 of the report card must indicate the state of development of the competencies in the areas specific to the Preschool Education program, if the competencies have been evaluated or, in the case of the last report card of the school year, a report on the state of development achieved by the student for each competency in the areas specific to the Preschool Education program.

The state of development of the competencies in the areas specific to the Preschool Education program and the report on the state of development of the competencies are based on the framework for the evaluation of learning for the Preschool Education program as established by the Minister.

O.C. 651-2000, s. 30; O.C. 488-2005, s. 10; O.C. 699-2007, s. 8; O.C. 712-2010, s. 7; O.C. 945-2023, s. 2.

30.1. The report cards for elementary education and the first or second cycle of secondary education must be consistent with the report cards in Schedules V to VII, as applicable. They must contain all the information shown in sections 1 to 3 of the report cards in the schedules; for the last report card of the school year in elementary education or the first cycle of secondary education, the report cards must contain the information shown in section 5 of the report card in the applicable schedule.

A student's results in section 2 of the report cards must include

- (1) a detailed result per competency for the language of instruction, second language and mathematics subjects;
- (2) a detailed result per component, theory and practical, for compulsory and elective science subjects, other than mathematics, such as Science and Technology and Applied Science and Technology;
- (3) a subject mark for each subject taught and the group average.

At the end of the first 2 terms of the school year, the detailed results, for the subjects for which such results are required, are detailed only for the competencies or components that have been evaluated.

At the end of the third term of the school year, the results consist in a report pertaining to the program of study, indicating the student's result for the competencies or components of the programs of studies for the subjects in subparagraphs 1 and 2 of the second paragraph as well as, for each subject taught, the student's subject mark and the group average.

The last report card of the school year includes the student's final mark for the competencies or components of the programs of studies established by the Minister for the subjects in subparagraphs 1 and 2 of the second paragraph as well as the student's final subject mark and the final group average for each subject taught. In secondary education, the credits earned for each subject passed are also indicated.

O.C. 488-2005, s. 11; O.C. 699-2007, s. 9; O.C. 712-2010, s. 7.

30.2. The results in section 2 of the elementary school report cards or secondary school report cards, cycle one or two, must all be expressed as a percentage. The results are based on the framework for the evaluation of learning established by the Minister for each program of study as well as, in accordance with section 30.3, on the examinations set by the Minister or the school service centre, if applicable.

The final mark per competency or component is calculated according to the following weighing: 20% for the first term, 20% for the second term, 60% for the third term.

The student's subject mark and final subject mark are calculated using the weighing of competencies established in the framework for the evaluation.

O.C. 699-2007, s. 9; O.C. 712-2010, s. 7.

30.3. Subject to section 34 of this basic school regulation and section 470 of the Act, a student's result for an examination set by the Minister is worth 20% of the student's final mark.

O.C. 699-2007, s. 9; O.C. 712-2010, s. 7; O.C. 318-2024, s. 6.

30.4. A school service centre may, to the extent and on the conditions determined by the Minister, exempt handicapped students or students with social maladjustments or learning disabilities and students receiving welcoming services and support in learning French from the application of the provisions relating to results in this basic school regulation.

O.C. 712-2010, s. 7.

31. To be admitted to an examination set by the Minister, secondary students must have been legally enrolled in a school, and must have taken the corresponding program or received appropriate instruction at home following an exemption from school attendance in accordance with subparagraph 4 of the first paragraph of section 15 of the Education Act (chapter I-13.3).

However, students exempted from taking the program because they have shown that they have achieved the objectives of that program by passing a compulsory examination set by the school or the school service centre may be admitted to an examination set by the Minister.

O.C. 651-2000, s. 31; S.Q. 2017, c. 23, s. 35.

The evaluation of the student's level of functioning must also show that the student displays the following characteristics:
